Our Training Course services will comprise of Vocational Training, Summer Training, Industrial Training, Apprenticeship Training, Internship Training, Project Training.

Whether you are a student looking to enhance your resume, a working professional aiming to upskill, or an entrepreneur seeking to expand your knowledge, or comprehensive course offerings have got you covered. From IT certifications to digital marketing, web development, to graphic designing. We offer a wide range of courses to cater to diverse interests and skillsets. What sets us apart from other training institutes in Lucknow is our team of experienced instructors who possess real world industry expertise. Our trainers are also passionate in their respective domains but are also passionate about sharing their knowledge with others. They provide individual attention and guidance, ensuring that each students comprehends the subject matter thoroughly.

Furthermore, our state-of-the-art training facilities are equipped with the latest technologies and tools to create an immersive learning experience. We believe in equipping our students with practical skills that they will immediately apply in their professional lives. Our training programs combine theoretical knowledge with hands on exercises, giving our students a comprehensive understanding of the subject matter.

OUR DIRECTOR

Introducing Ambikesh Tripathi, the visionary behind Ekana Technologies, a dynamic leader with a proven track record of success spanning over 15 years across diverse industries. Armed with a robust educational background and over 15 years of diverse industry experience, Ambikesh Tripathi has consistently demonstrated his ability to excel in challenging environments. Holding a B.Tech in Information Technology and an MBA from Symbiosis Business School, Ambikesh has honed his expertise across various sectors, including software, USA Telecom, and as a Software Consultant. His relentless pursuit of excellence and adaptability to evolving landscapes make him a valuable asset in any professional setting. With a tenure of over 6 years at TechMahindra and 2 years at Bharti Airtel as a Technical Lead, Ambikesh has demonstrated his proficiency in leading technical teams and delivering exceptional results. Notably, during his stint at TechMahindra, he had the opportunity to work in the United States, collaborating with renowned international clients such as AT&T, BT (British Telecom), and Megapath INC. Ambikesh's professional journey has been characterized by international exposure and collaboration. During his tenure with TechMahindra, he had the opportunity to work in the United States, engaging with prestigious clients such as AT&T, BT (British Telecom), and Megapath INC (El Segundo, CA, and San Jose, United States.) His extensive experience in software consulting, IT consulting, and USA Telecom consulting underscores his versatility and adaptability in navigating complex technical landscapes. Building upon his corporate experience, Ambikesh embarked on an entrepreneurial journey, founding Ekana Technologies. Under his leadership, Ekana has expanded its footprint across Canada and the USA, catering exclusively to international clients. Ambikesh's vision and leadership have positioned Ekana Technologies as a trusted partner for businesses seeking innovative solutions on a global scale.

15

TRAINING PROGRAMS OFFERED BY EKANA TECHNOLOGIES:

01

Vocational Training

Our vocational training programs in software development and website development are tailored to provide students with practical skills and knowledge essential for entering the tech industry. Through hands-on projects and real-world scenarios, participants will gain valuable experience and industry-relevant expertise.

Summer Training

Our summer training programs offer students the opportunity to maximize their summer break by immersing themselves in software development and website development courses. These intensive programs cover essential concepts and techniques, allowing students to build a strong foundation and gain valuable skills during their break.

02

03

Industrial Training

Our industrial training programs provide students with the opportunity to gain firsthand experience working on real-world projects in software development and website development. Through internships with industry partners, participants will apply their classroom knowledge in a professional setting, gaining practical insights and valuable skills.

Apprenticeship Training

Our apprenticeship training programs offer individuals the chance to learn and grow under the mentorship of experienced professionals in the field. Apprentices will work alongside seasoned experts, gaining hands-on experience and valuable guidance as they develop their skills in software development and website development.

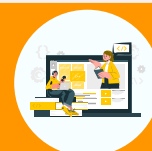

05

Internship Training

Our internship training programs provide students with valuable work experience in software development and website development, allowing them to apply their classroom knowledge in a real-world setting. Interns will work on projects under the supervision of industry professionals, gaining practical insights and building their professional network.

Project Training

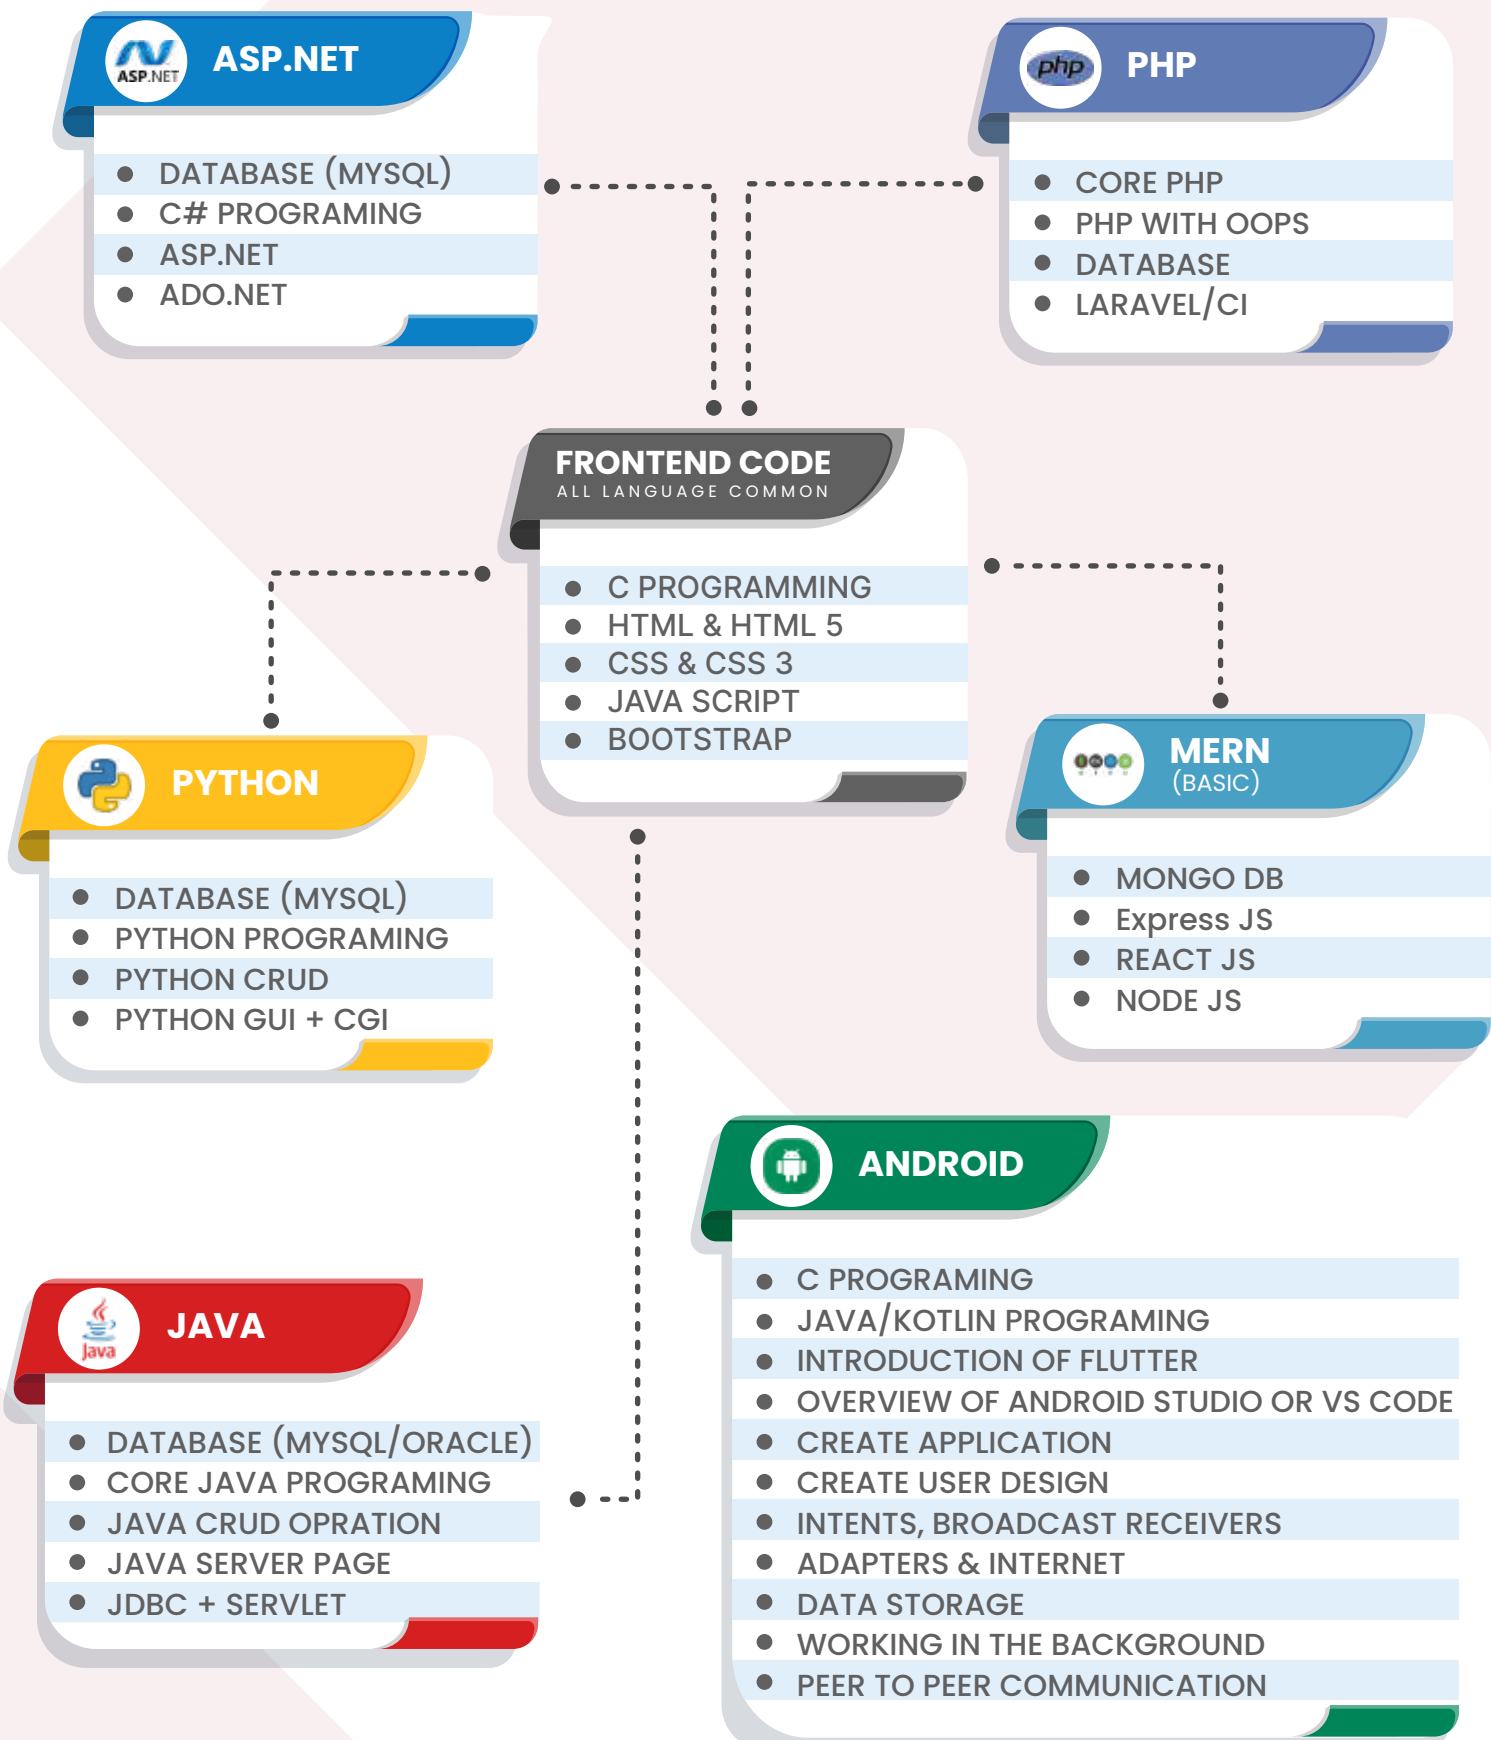

Our project training programs offer students the opportunity to work on industry-relevant projects in software development and website development. Participants will apply their skills to solve real-world challenges, gaining valuable experience and building a strong portfolio to showcase their abilities to potential employers.
